Full Service Lawn Care and Landscaping Maintenance
Call today for a free proposal: (866) 531-4448

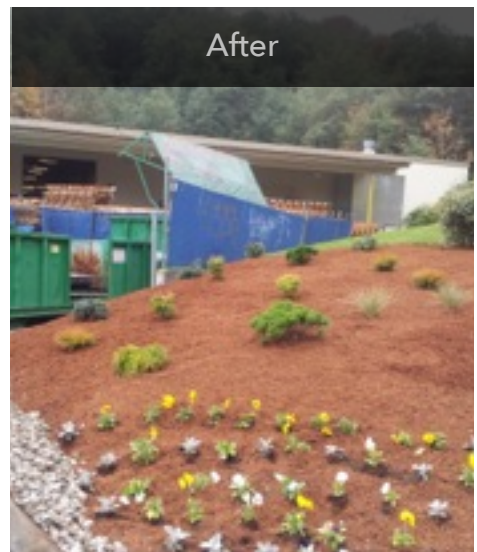

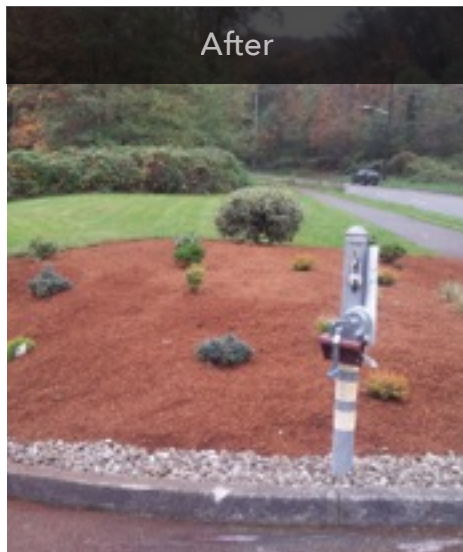

Greenpoint Landscaping has serviced Pioneer Industries' 21 different commercial sites with landscaping maintenance for over 5 years. This particular location needed some front entry work and had a water drainage issue, causing soil to be washed into the driveway.

Client: Pioneer Industries Commercial Landscaping

We removed the existing shrubs and installed new drought-tolerant, native type plants, and bark. We also installed 12" of drain rock along the curb to help the water drain properly.

The bark and new plants help to retain the rain water and present a more professional look.
