

# MAJOR RETAILER

## CASE STUDY • COMMERCIAL

Greenpoint Landscaping maintains several major retailer chain locations. The properties are highly visible and are staple real estate sites to their respective communities. The stores were in need of curb appeal enhancement and maintenance consistency.

We installed a variety of native shrubs and grasses around the parking lot beds and walkways. We also added a fresh layer of bark to all the bed areas. The new plants enhanced the walkway area esthetics, while the bark provided a polished look to the store.
