

LOCAL HOA

CASE STUDY • MULTI-FAMILY

Greenpoint has serviced the HOA entrance and community play area for more than a year. The HOA board members provided Greenpoint with a specific scope of work and scheduling requirements. Communication and consistency are key components to successfully maintaining the site, and pleasing the board members.

Greenpoint assigned one point-of-contact to manage the account. This enables Greenpoint to streamline all communication with the HOA board. In addition to consistent maintenance, Greenpoint enhanced the sites' aesthetic appearance by installing a layer of mulch around the property.
